

Minutes from Dogwood Park Public Information Session – September 12, 2018

John Lepke, Chair of the Village of Wesley Chapel Parks & Recreation committee presented. Presentation included ideas on improvements at the park including stand alone restrooms, a community center incorporating restrooms, classrooms and meeting space, a traditional playground and a playground geared toward toddlers, as well as picnic pavilions/shelters.

Residents present liked the idea of a community center and its potential for many varied uses.

One attendee felt the toddler playground would provide activity for younger attendees while there may be a more adult functions occurring at the park, keeping distractions and noise down.

All attendees agreed restrooms near the toddler town playground were a must.

 John Lepke.
